

One Of The Most Popular Foods In The World

Is Now One Of The Healthiest!

Dark chocolate is a powerful antioxidant. XOÇAI™ dark chocolate has nearly 3 times the antioxidant powers of other dark chocolates you can buy.*

That means it has nearly *6 times* the antioxidants of blueberries, cranberries, even pomegranates.

XOÇAI™ chocolate was developed by a diabetic to actually help regulate blood sugar. This remarkable food is made using a patented process unlike any other in use in the industry today. Not only is its antioxidant rating so high, but it tastes better than other dark chocolates, because it is flavored with acai and blueberries. This gets rid of the bitter taste dark chocolate so often has, without adding any fat or empty calories.

Beyond its amazing antioxidant properties, case studies have shown that eating XOÇAI™ dark chocolate every day has helped in the treatment of – *and in the reduction of medications needed* – for such conditions as:

- high blood pressure,
- high cholesterol,
- blood clots, and
- depression.

XOÇAI™ chocolate can even decrease periodontal disease and tooth decay! And putting a piece in your child's lunch every day will supply many nutrients a growing body needs *without* fats or empty calories. These chocolates are kosher, all natural, and suitable for vegetarians and for many people with wheat, soy, dairy, and nut sensitivities.†

Now Activ™ is even better!
Our most powerful and healthy Activ ever!

Here is perhaps the most amazing story: A cancer patient's already weakened body was invaded by 4 deadly strains of infection, including a severe case of Candida Albicans, and was unable to take the 3 most powerful antibiotics normally used to combat these infections. *Two weeks after eating 6 pieces a day of XOÇAI™ Activ chocolate with probiotics*, the Candida was gone and the patient was out of bed, feeling clear-headed, energetic, *and grateful!*‡

XOÇAI™ chocolate has been featured on *CBS This Morning* and in leading industry journals. It is showing more and more promise as a health aid every day. Call (410) 588-7099 for more information on this amazing breakthrough that is taking the health industry by storm, and for your *free samples*.

*Including only those meant to be eaten alone.

†Not all products are suitable for all sensitivities. See ingredient lists for details.

‡This is a case history only. Do stop medical treatments &/or refuse medication without your doctor's knowledge and approval.

Food	ORAC Rating
XOÇAI Dark Chocolate	45,000†
